ECV SERVICES IN INSTITUTIONAL STRENGTHENING

For Employers working within the International Construction Sector and with Multinational Funding.

Government Ministries, Agencies and Municipalities who are developing infrastructure projects with the support of International Financial Institutions such as the World Bank, EBRD, EU & ADB, require their representatives managing the projects to have all the relevant professional and administrative skills to optimise the project implementation.

ECV Specialist Services:

ECV provides special training and support to such Authorities to assist in such matters as:

- Overall project management disciplines
- Selection of procurement options
- Preparation of tender documentation
- Preparation of Particular Conditions of Contract
- Tender adjudication
- Contract administration
- Project cost controls and management
- Claims audit and preparation
- Mediation and Adjudication
- “Trouble Shooting” on projects

Recent Track Record

- **Romania & Bulgaria** – training and consultancy on EU Procurement Procedures and Practical Use of International Contract Conditions for Ministry, Agency and Municipality officials responsible for the ISPA Programme.
- **Czech Republic** – training and consultancy work for Ministry of Finance and other Ministry officials in “gap-plugging” in EU procurement methods in preparation for accession to the EU.
- **Estonia** – wide range of training in project, financial, and management disciplines for Ministry Officials.
- **Ethiopia** – practical training for local construction industry in good management practices for contracting companies

Project Management Manual

ECV has prepared a ***Project Management Manual*** especially for Employer’ personnel which covers responsibilities from inception to commissioning in a practical and usable way.
