## **ECV SERVICES IN TRAINING** **AND CONTINUED PROFESSIONAL DEVELOPMENT** **FOR THE INTERNATIONAL CONSTRUCTION INDUSTRY**

All Parties to the Construction Industry, Employers, Designers, Engineers and Contractors rely on the professional competence of their employees. Investing in their skills is the surest way to improve the performance of your organisation.

ECV provides specialist courses for those working in the International Construction Industry and has undertaken over 100 courses in Europe, training in excess of 5000 professionals in the last 3 years.

### **Public Courses**

In partnership with the *Fédération Internationale des Ingénieurs – Conseils (FIDIC)* regular courses are held in Brussels on:

- *The Management of Contract Claims and the Resolution of Disputes*
- *The Practical Use of the New 1999 FIDIC Conditions of Contract*
- *100 Key issues when using the New FIDIC Contracts.*

In addition, ECV undertakes public courses in association with the British Consultants and Contractors Bureau (BCCB) and the Institute of Engineers of Ireland (IEI), as well as through its local companies and associated organisation in Russia, Latvia Poland and the Balkan States.

### **“In-House” Courses**

ECV is very experienced in providing courses designed specifically for the needs of organisations or companies relating to management and contractual disciplines necessary within the international construction industry namely:

- **Project Management Disciplines**
- **EU Procurement Rules and Procedures**
- **Practical use of International Contract Conditions (FIDIC)**
- **Financial and Cost Control Management of Projects**
- **Risk Analysis of Projects and Contracts**
- **Mediation and Dispute Adjudication**

### **ECV Specialists**

ECV has experienced tutors with the necessary International Construction experience to meet your training needs.

Please contact us directly and we shall be pleased to advise of our current public courses or provide you with a “tailor made” course if you require “in-house” training.
